★ PACKING

★ CARE and USE

- **DRUM LIFTER** is for same application as Grane, Electric Hoist, and Chain Block.
- **DRUM LIFTER** has various application for lifting of large or small steel drums, without lid, or even for Liquid or Solid, the different shaped or transformed steel boxes.
- As general usages, there is an example to use steel drum to Cut half or adequate sizes to use. And, in such case of no edge (portion of drum) appearing on grip section, there is risk for **GRABS** to slip or come off. But in this Case, grips edges would be welded or bolted reinforcements as shown Under:
- In any case, Do not exceed Working road limit.
- UP-right lifting would be applicable by one hand operation if spring will be off.
